

## Day 1 (Part 1)

Skills learned:

- ✓ Workbook
- ✓ Worksheet
- ✓ Rows
- ✓ Columns
- ✓ Cells
- ✓ Data Entry
- ✓ Cell References

=====

This is exactly where you should be for **Day 1**.

I can see:

- Google Sheets is open
- Blank spreadsheet created
- Rows (1,2,3...)
- Columns (A,B,C,D...)
- Cell A1 selected

You are ready to start MIS training.

---

## Task 1: Rename the Spreadsheet

Top left:

**Untitled spreadsheet**

Change it to:

**MIS\_Day1\_Practice**

---

## Task 2: Enter This Data

Starting from **A1**:

| <b>A</b> | <b>B</b>   | <b>C</b> |
|----------|------------|----------|
| Name     | City       | Sales    |
| Ravi     | Chennai    | 15000    |
| Kumar    | Coimbatore | 22000    |
| Priya    | Madurai    | 18000    |
| Arun     | Trichy     | 25000    |
| Meena    | Salem      | 12000    |

---

## Task 3: Understand Cells

Click these one by one:

- A1
- B2
- C3
- A5

Look at the Name Box (left of formula bar).

This teaches cell references.

Example:

| Cell | Meaning          |
|------|------------------|
| A1   | Column A + Row 1 |
| B2   | Column B + Row 2 |
| C3   | Column C + Row 3 |

---

## Task 4: Create New Worksheet

Bottom left:

Click +

Rename:

**Lead Report**

Click + again

Rename:

**Revenue Report**

You should now have:

- Sheet1
- Lead Report
- Revenue Report

---

## Task 5: Learn Row & Column

### Row

1,2,3,4,5...

Horizontal

### Column

A,B,C,D,E...

Vertical

---

## Mini Quiz

Answer these:

1. What is cell C2?
2. Is Row 5 horizontal or vertical?
3. Is Column B horizontal or vertical?
4. What is the difference between Workbook and Worksheet?

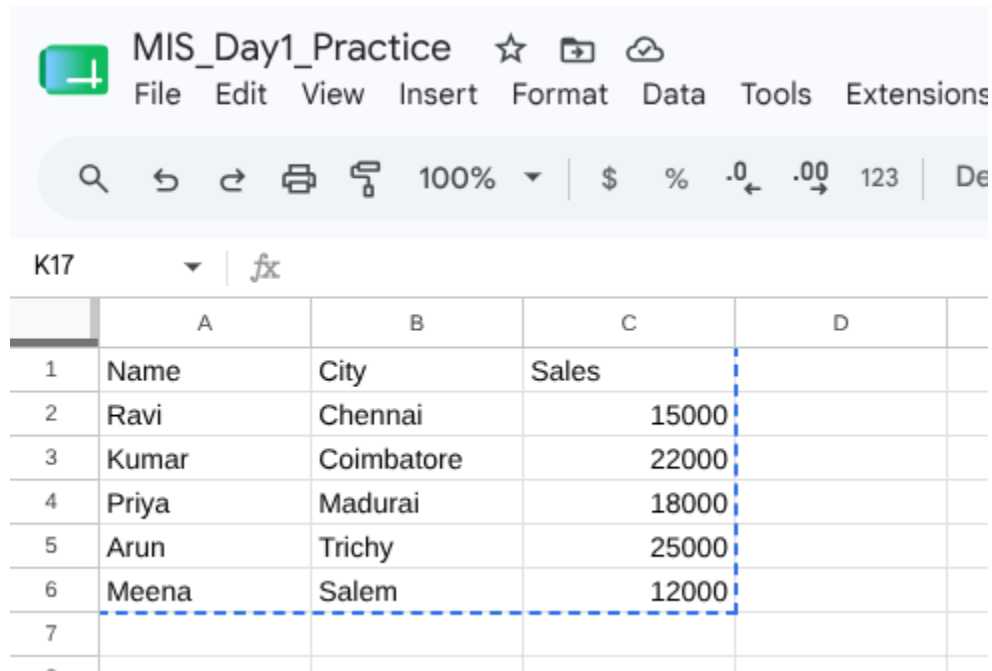

Reply with your answers after entering the data. Then I'll teach **Day 1 Part 2: Formatting (Bold, Borders, Colors, Alignment)** like a real MIS Executive.

=====

| Name  | City       | Sales |
|-------|------------|-------|
| Ravi  | Chennai    | 15000 |
| Kumar | Coimbatore | 22000 |
| Priya | Madurai    | 18000 |
| Arun  | Trichy     | 25000 |

Meena Salem 12000

=====

|   | A     | B          | C     | D |
|---|-------|------------|-------|---|
| 1 | Name  | City       | Sales |   |
| 2 | Ravi  | Chennai    | 15000 |   |
| 3 | Kumar | Coimbatore | 22000 |   |
| 4 | Priya | Madurai    | 18000 |   |
| 5 | Arun  | Trichy     | 25000 |   |
| 6 | Meena | Salem      | 12000 |   |
| 7 |       |            |       |   |

### Cell Meaning

- A1 Column A + Row 1
- B2 Column B + Row 2
- C3 Column C + Row 3

=====

### Cell Value

- A1 Name
- B1 City
- C1 Sales

|    |            |
|----|------------|
| A2 | Ravi       |
| B2 | Chennai    |
| C2 | 15000      |
| A3 | Kumar      |
| B3 | Coimbatore |
| C3 | 22000      |

=====

### Quiz Based on Your Sheet

1. What value is in **A4**?

Priya

2. What value is in **B5**?

Trichy

3. What value is in **C6**?

12,000

4. Which cell contains **Madurai**?

B4

=====

 Excellent! Let's check your answers.

Your sheet:

| Row | Name | City | Sales |
|-----|------|------|-------|
|-----|------|------|-------|

|   |      |      |       |
|---|------|------|-------|
| 1 | Name | City | Sales |
|---|------|------|-------|

|   |      |         |       |
|---|------|---------|-------|
| 2 | Ravi | Chennai | 15000 |
|---|------|---------|-------|

|   |       |            |       |
|---|-------|------------|-------|
| 3 | Kumar | Coimbatore | 22000 |
|---|-------|------------|-------|

|   |       |         |       |
|---|-------|---------|-------|
| 4 | Priya | Madurai | 18000 |
|---|-------|---------|-------|

|   |      |        |       |
|---|------|--------|-------|
| 5 | Arun | Trichy | 25000 |
|---|------|--------|-------|

|   |       |       |       |
|---|-------|-------|-------|
| 6 | Meena | Salem | 12000 |
|---|-------|-------|-------|

=====

Answers

| Question | Your Answer | Correct? |
|----------|-------------|----------|
|----------|-------------|----------|

|                      |       |                                                                                             |
|----------------------|-------|---------------------------------------------------------------------------------------------|
| What value is in A4? | Priya |  Correct |
|----------------------|-------|---------------------------------------------------------------------------------------------|

|                      |        |                                                                                             |
|----------------------|--------|---------------------------------------------------------------------------------------------|
| What value is in B5? | Trichy |  Correct |
|----------------------|--------|---------------------------------------------------------------------------------------------|

What value is in C6?                      12000                       Correct

Which cell contains Madurai?    B4                       Correct

=====

 **Score: 4/4**

You now understand:

- Rows
- Columns
- Cells
- Cell References

These are the foundations of Excel, Google Sheets, MIS, Power BI, and even SQL reporting
