

Can I get a foreign remote job?

The question is:

For which role can I realistically get a foreign remote job?

Your Current Strengths

Strength	Value
MBA	Strong
Business Analyst Experience (~19 Years)	Very Strong
AI Learning	Good
Business Process Understanding	Very Strong
English Communication	Required for BA roles
AI Tools (ChatGPT, Claude, etc.)	Good
Remote Work Readiness	Good

Where You May Struggle

Area	Gap
SQL	Need improvement
Power BI	Need improvement
Advanced Analytics Portfolio	Need more
International BA Experience	Not visible yet
Agile/Jira/Confluence	Check if you have experience

Realistic Foreign Remote Roles

Best Match

Business Analyst
Business Systems Analyst
Process Analyst
Operations Analyst
AI Business Analyst

Second Best Match

Reporting Analyst
Data Analyst
BI Analyst

(after SQL + Power BI)

Not Recommended Right Now

Machine Learning Engineer
AI Researcher
Senior Data Scientist

These roles compete heavily with specialized technical candidates.

Salary Expectations

If You Get an India-Based Remote Role

Role	Expected Range
MIS Executive	₹4–8 LPA
Senior MIS Executive	₹6–10 LPA
Business Analyst	₹8–15 LPA

Senior Business Analyst ₹12–20+ LPA

If You Get a Foreign Remote Contract Role

Role	Expected Range
Business Analyst	₹12–25 LPA equivalent
AI Business Analyst	₹15–30+ LPA equivalent
Process Consultant	₹15–35+ LPA equivalent

This depends heavily on:

- Industry
 - Time zone requirements
 - Contract vs employee
 - Communication skills
-

What I Would Do If I Were You

Next 3 Months

Learn:

SQL
Power BI

Build:

Sales Dashboard
Business KPI Dashboard
Customer Analytics Dashboard

Next 6 Months

Update LinkedIn:

MBA | Business Analyst | Data Analytics | SQL | Power BI | AI Automation

Apply to:

- Remote Business Analyst roles
 - Remote Operations Analyst roles
 - Remote Reporting Analyst roles
 - Remote AI Business Analyst roles
-

My Honest Assessment

With:

MBA

+

19 Years Business Analyst Experience

+

AI Learning

you absolutely have a chance at remote foreign roles.

The limiting factor is **not your age**.

The limiting factors are:

SQL

Power BI

Portfolio

LinkedIn Positioning

Those are fixable in a few months.

What Salary Would I Target?

Today:

₹8–15 LPA

is a realistic target range.

After gaining SQL + Power BI + a stronger analytics portfolio:

₹12–20+ LPA

becomes much more realistic, including remote opportunities.

So my roadmap for you would be:

Business Analyst

SQL

Power BI

Remote Business Analyst

AI Business Analyst

Consulting / Freelance

That path makes the best use of your 19 years of experience while taking advantage of the AI skills you're currently building.
