

Vertical Alignment (Google Sheets on Chromebook)

Vertical Alignment controls whether text appears at the **Top**, **Middle**, or **Bottom** of a cell.

Create a Tall Row

1. Select Row 2.
2. Right-click the row number (2).
3. Click **Resize row**.
4. Enter **60**.
5. Click **OK**.

Now Row 2 is taller.

1	Employee ID	Employee Name	Department	Salary	
2	EMP001	Ravi	Sales	25000	
3	EMP002	Kumar	HR	30000	
4	EMP003	Priya	Finance	35000	
5	EMP004	Arun	Marketing	28000	
6	EMP005	Divya	IT	40000	

=====

Top Alignment

1. Select cell **A2**.
2. Click **Vertical Align** icon in the toolbar.
3. Choose **Top**.

Text moves to the top of the cell.

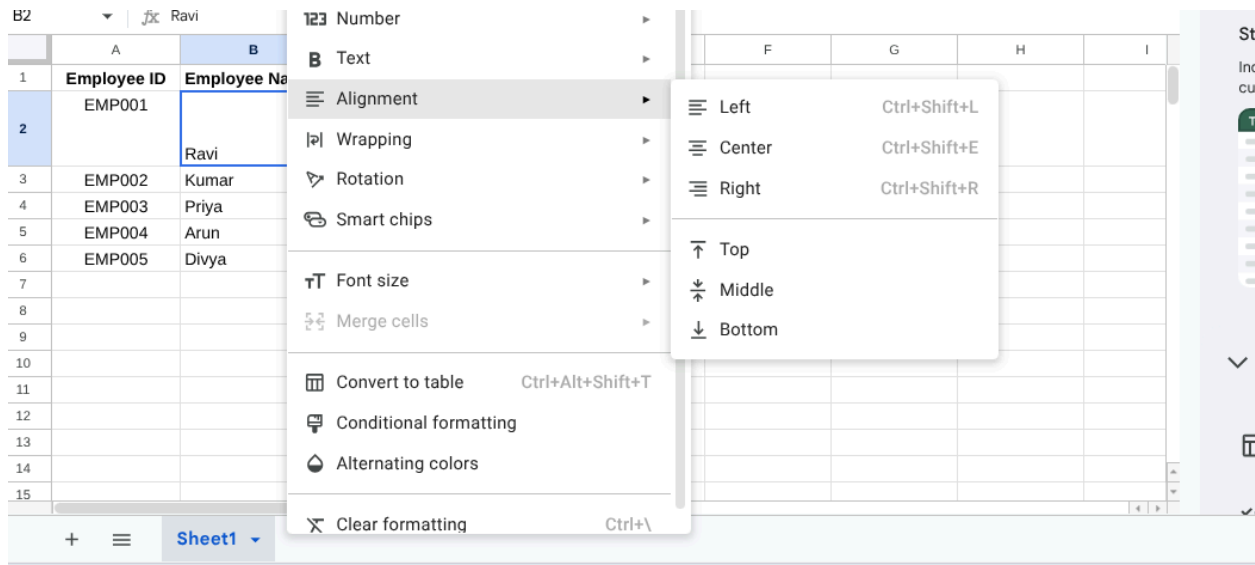

1	Employee ID	Employee Name	Department	Salary	
2	EMP001	Ravi	Sales	25000	
3	EMP002	Kumar	HR	30000	
4	EMP003	Priya	Finance	35000	
5	EMP004	Arun	Marketing	28000	
6	EMP005	Divya	IT	40000	

=====

Middle Alignment

1. Select cell **B2**.
2. Click **Vertical Align**.
3. Choose **Middle**.

Text appears in the center vertically.

Employee ID	Employee Name	Department	Salary
EMP001	Ravi	Sales	25000
EMP002	Kumar	HR	30000
EMP003	Priya	Finance	35000
EMP004	Arun	Marketing	28000
EMP005	Divya	IT	40000

=====

Bottom Alignment

1. Select cell **C2**.
2. Click **Vertical Align**.
3. Choose **Bottom**.

Text moves to the bottom of the cell.

Employee ID	Employee Name	Department	Salary
EMP001	Ravi	Sales	25000
EMP002	Kumar	HR	30000
EMP003	Priya	Finance	35000
EMP004	Arun	Marketing	28000
EMP005	Divya	IT	40000

=====

Practice Exercise

Make Row 2 height = 60.

Apply:

Cell Vertical Alignment

A2 Top

B2 Middle

C2 Bottom

Observe the difference.

=====

Day 2 – Step 3: Row Height

Row Height controls how tall a row appears.

Practice 1

1. Select **Row 1** (Header row).
2. Right-click → **Resize Row**.
3. Enter **40**.
4. Click **OK**.

Result:

- Header becomes taller and more professional.

Employee ID	Employee Name	Department	Salary
EMP001	Ravi	Sales	25000
EMP002	Kumar	HR	30000
EMP003	Priya	Finance	35000
EMP004	Arun	Marketing	28000
EMP005	Divya	IT	40000

=====

Practice 2

1. Select **Rows 2 to 6**.
2. Right-click → **Resize Rows 2–6**.
3. Enter **30**.
4. Click **OK**.

Result:

- Data rows become evenly spaced.

Employee ID	Employee Name	Department	Salary
EMP001	Ravi	Sales	25000
EMP002	Kumar	HR	30000
EMP003	Priya	Finance	35000
EMP004	Arun	Marketing	28000
EMP005	Divya	IT	40000

Professional MIS Format

Row Height

Header 40

Data Rows 30

=====

Employee ID	Employee Name	Department	Salary		
EMP001	Ravi	Sales	25000		
EMP002	Kumar	HR	30000		
EMP003	Priya	Finance	35000		
EMP004	Arun	Marketing	28000		
EMP005	Divya	IT	40000		

Bonus Formatting

Select Row 1 and apply:

- **Bold**
- **Center Alignment**

- **Gray Background**

This is how MIS reports are usually formatted.

Expected Result

Employee ID	Employee Name	Department	Salary
EMP001	Ravi	Sales	25000
EMP002	Kumar	HR	30000
EMP003	Priya	Finance	35000
EMP004	Arun	Marketing	28000
EMP005	Divya	IT	40000

with:

- Header height = 40
- Data row height = 30
- Bold header
- Gray header background
