

Day 2 – Step 6: Freeze Rows

This is one of the most useful MIS features.

Why?

Imagine you have 1,000 employee records.

When you scroll down, the header row disappears.

Freeze Row keeps the header visible at all times.

Step 1

Add more data below your table.

Copy and paste:

Employee ID	Employee Name	Department	Salary
EMP006	John	HR	32000
EMP007	Meena	IT	45000
EMP008	Raj	Sales	38000
EMP009	Karthik	Finance	42000
EMP010	Deepa	Marketing	36000

=====

See the **blue line below the header row**? That means Row 1 is frozen.

How Freeze Works

Without Freeze:

- Scroll down
- Header disappears

With Freeze:

- Scroll down
 - Header stays visible at the top
-

To Freeze Row 1 (Step by Step)

Method 1

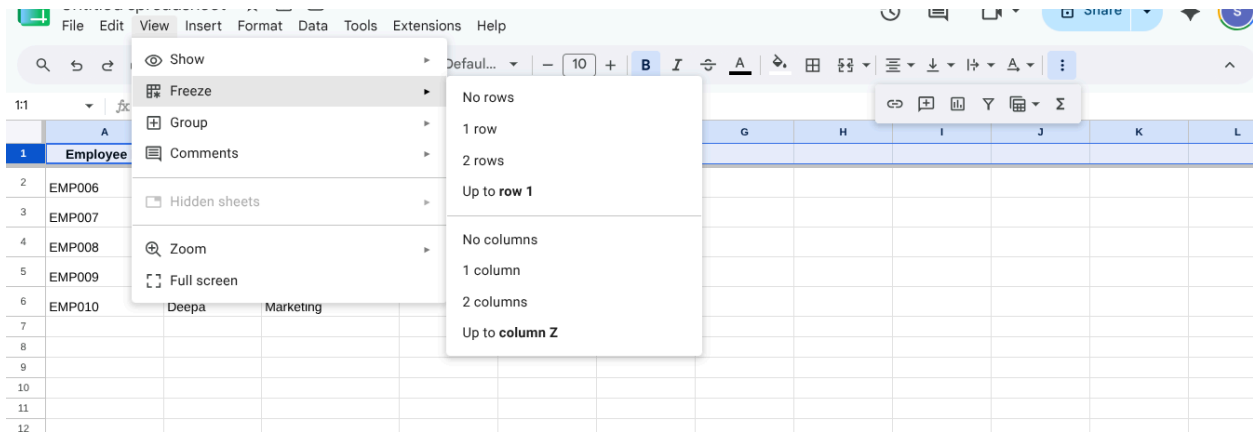

1. Open your Google Sheet.
2. Click **View** (top menu).
3. Click **Freeze**.
4. Click **1 row**.

That's it.

How to Check

1. Scroll down using the mouse wheel.
2. If "Employee ID", "Employee Name", "Department", and "Salary" stay at the top, Freeze is working.

From your screenshot, I can still see the header row while viewing employee records below it, so it appears **Row 1 is already frozen**. 

1	Employee ID	Employee Name	Department	Salary
2	EMP006	John	HR	32000
3	EMP007	Meena	IT	45000
4	EMP008	Raj	Sales	38000
5	EMP009	Karthik	Finance	42000
6	EMP010	Deepa	Marketing	36000
7				

1	Employee ID	Employee Name	Department	Salary
4	EMP008	Raj	Sales	38000
5	EMP009	Karthik	Finance	42000
6	EMP010	Deepa	Marketing	36000
7				
8				
9				
10				

=====

Day 2 – Step 7: Freeze Columns

=====

Now we'll freeze the **Employee ID** column.

Step 1

Click **View**.

Step 2

Click **Freeze**.

Step 3

Click **1 column**.

Step 4

Move the horizontal scrollbar at the bottom to the right.

Expected Result

Even when you scroll right, **Employee ID** remains visible on the left side.

How to Confirm

You will see a thicker vertical line after Column A.

A	B	C	D	
Employee ID	Employee Name	Department	Salary	
EMP006	John	HR	32000	
EMP007	Meena	IT	45000	
EMP008	Raj	Sales	38000	
EMP009	Karthik	Finance	42000	
EMP010	Deepa	Marketing	36000	

=====

Step 7 Verification

- ✓ Column A (Employee ID) is frozen
- ✓ Thick vertical freeze line is visible after Column A
- ✓ Data is displaying correctly
- ✓ Freeze Column feature is working

Step 7 Completed

=====
