Real MIS Sales Report Practice

This is your first complete MIS report using all the functions learned so far.

Step 1: Create the Data Table

Employee	Sales	Status
Ravi	12000	Achieved
Priya	8000	Not Achieved
Kumar	15000	Achieved
Anitha	7000	Not Achieved

Suresh 18000 Achieved

Step 2: Apply Data Validation

For the **Status** column:

Select:

C2:C6

Create a dropdown with:

Achieved

Not Achieved

Step 3: Apply Conditional Formatting

Select:

B2:B6

Rule 1

Greater than or equal to 10000

Color: Green ●

Rule 2

Less than 10000

Color: Red ●

Step 4: MIS Summary Section

Create this below the table.

Metric	Formula
Total Sales	=SUM(B2:B6)
Average Sales	=AVERAGE(B2:B6)
Highest Sales	=MAX(B2:B6)
Lowest Sales	=MIN(B2:B6)
Number of Sales Entries	=COUNT(B2:B6)
Filled Employee Names	=COUNTA(A2:A6)
Achieved Count	=COUNTIF(C2:C6,"Achieved")
Not Achieved Count	=COUNTIF(C2:C6,"Not Achieved")

Expected Results

Total Sales

=SUM(B2:B6)

Result:

60000

Average Sales

=AVERAGE(B2:B6)

Result:

12000

Highest Sales

=MAX(B2:B6)

Result:

18000

Lowest Sales

=MIN(B2:B6)

Result:

7000

Count

=COUNT(B2:B6)

Result:

5

COUNTA

=COUNTA(A2:A6)

Result:

5

Achieved Count

=COUNTIF(C2:C6,"Achieved")

Result:

3

Not Achieved Count

=COUNTIF(C2:C6,"Not Achieved")

Result:

2

Final MIS Report Layout

Employee	Sales	Status
----------	-------	--------

Ravi	12000	Achieved
------	-------	----------

Priya	8000	Not Achieved
Kumar	15000	Achieved
Anitha	7000	Not Achieved
Suresh	18000	Achieved

Summary

Metric	Value
Total Sales	60000
Average Sales	12000
Highest Sales	18000
Lowest Sales	7000
Sales Entries	5
Employee Count	5
Achieved	3
Not Achieved	2
