

Formula Structure (=Function())

Every Excel/Google Sheets formula follows a structure.

General Format

=FUNCTION_NAME(RANGE)

Example

=SUM(B3:B8)

Breakdown

Part	Meaning
=	Start a calculation
SUM	Function name
()	Contains arguments
B3:B8	Range of cells

More Examples

=AVERAGE(B3:B8)

=MAX(B3:B8)

=MIN(B3:B8)

Key Learning

All functions follow the same pattern:

=FUNCTION(RANGE)
