

MAX Function

MAX finds the **highest value** in a range.

Question

Looking at your data:

Value

100

200

300

400

500

600

Which value is the **largest**?

100

200

300

400

500

600

What do you think the answer is?

—

The **largest value** is:

600

MAX Function

The MAX function finds the **highest number** in a range.

Syntax

=MAX(B3:B8)

Meaning

Part	Meaning
=	Start calculation
MAX	Find highest value
B3:B8	Range to check

=====

D8	▼	fx
	A	B
1	Cell	Value
2	A1	Sales
3	A2	100
4	A3	200
5	A4	300
6	A5	400
7	A6	500
8	B8	600
9		
10	Sum	2100
11	Average	350
12	Maximum	600
13		

=====

Practice

In cell **B12** type:

=MAX(B3:B8)

Press **Enter**.

Google Sheets will check:

100
200
300
400
500
600

and return:

600

Real MIS Example

Employee	Sales
Ravi	100
Priya	200
Kumar	300
Ajay	400
Ram	500
John	600

Formula:

=MAX(B3:B8)

Result:

600

Business Meaning:

John achieved the highest sales value of 600.

Managers use MAX to identify:

- Top-performing employees
- Highest sales day
- Highest revenue month
- Best-selling product

=====

MIN Function

MIN finds the **smallest value** in a range.

Look at your data:

Value

100

200

300

400

500

600

Question

Which value is the smallest?

100

200

300

400

500

600

Answer:

100

Formula

In cell **B13** enter:

=MIN(B3:B8)

Add the label in **A13**:

Minimum

How Google Sheets Calculates

It checks:

100

200

300

400

500

600

and returns the lowest value:

100

Expected Final Output

A	B
Sum	2100
Average	350
Maximum	600
Minimum	100

B13		fx =MIN(B2:B8)
	A	B
1	Cell	Value
2	A1	Sales
3	A2	100
4	A3	200
5	A4	300
6	A5	400
7	A6	500
8	B8	600
9		
10	Sum	2100
11	Average	350
12	Maximum	600
13	Minimum	100
14		

=====

Real MIS Example

Suppose these are daily sales.

Day	Sales
-----	-------

Mon	100
-----	-----

Tue	200
-----	-----

Wed	300
-----	-----

Thu	400
-----	-----

Fri	500
-----	-----

Sat	600
-----	-----

Formula:

=MIN(B3:B8)

Result:

100

Business Meaning:

The lowest sales day recorded was ₹100.

Managers use MIN to identify:

- Lowest sales day
- Lowest performing employee
- Minimum stock level
- Minimum profit month

=====

Metric	Value
Total Sales	2100
Average Sales	350
Highest Sales	600
Lowest Sales	100

—
